

# REDFLAME

## The Premium South African Anthracite from Zululand

### Redflame, the perfect value-for-money anthracite is:

- ◆ A well-established product from Ingwe's Zululand anthracite colliery in Kwa-Zulu Natal.
- ◆ Mined from a single seam. ◆ Of consistent quality; essential to anthracite users.
- ◆ A hard slack-free robust fuel for easier handling and higher saleable product availability.
- ◆ Suitable for all closed appliances and cookers. ◆ CV 13,500 Btu/hr
- ◆ Medium ash: 7.5 - 8.5%. ◆ Medium volatile: 5.5 - 6.0% ◆ Low sulphur: less than 1.0%
- ◆ An excellent value-for-money fuel for users who regard cost/value of prime importance.
- ◆ Washed and fully prepared to our exacting standards.
- ◆ Rescreened into vehicle ensuring a perfect load every time.
